

LYNCH RECOGNIZED FOR DIVERSITY EFFORTS

Rhonda Lynch, Manager, PHI Supplier Diversity, has been recognized in *WE Women's Enterprise USA magazine* as one of the "100 Women Impacting Supplier Diversity." This distinguished list highlights key women advocates, and their companies, who influence diversity practices in corporate America.

This is the first time in the publication's history that the list is being released. Honorees and their corporations were selected based on their continued presence in the supplier diversity arena, with particular focus on efforts over the past year. Included among the distinct group are executive women who consistently participate in and create activities to develop women business owners and companies who stand at the forefront of diversity initiatives.
